Date: April 26, 2007

Bill Rigby
Engineering Associate, Data Management Unit
Division of Water Rights
P.O. Box 2000
Sacramento, CA 95812

Dear Mr. Rigby:

This letter pertains to the Lassen National Forest's Supplemental Statements of Water Diversion and Use for 2004, 2005, and 2006. Enclosed are 58 of the 70 Supplemental Statements of Water Diversion and Use, which were completed by Andrew Breibart, Hydrologist on the Lassen National Forest. I designated Andrew Breibart through his supervisor, Scott Tangenberg, Forest Hydrologist, to complete the Supplemental Statements.

Five of the remaining 12 Supplemental Statements were forwarded to Alan Olson, Ecosystem Staff Officer for the Shasta-Trinity National Forest in Redding, CA, for completion. Listed below are these five statements, which have points of diversion and points of use on the Shasta-Trinity National Forest:

- S001371,
- S001412,
- S001413,
- S001416, and
- S001421,

Please update your records to reflect USFS Shasta-Trinity National Forest as the "Primary Owner" for these Supplemental Statements.

Of the seven other Supplemental Statements that we have chosen not to file, these are exact duplicates of seven stock certificates.

Caring for the Land and Serving People

Printed on Recycled Paper

We understand that the State will remove these riparian water rights from its database and will cease mailing Supplemental Statements for these riparian water rights.

If you have any questions regarding these Supplemental Statements, please contact Scott Tangenberg at 530-252-6670 or Andrew Breibart at 530-252-6456.

Sincerely,

LAURIE TIPPIN
Forest Supervisor

E. Changes in Method of Diversion - Describe any changes in your project since your previous statement was filed. (New pump, enlarged diversion dam, location of diversion, etc.)

F. Please answer only those questions below which are applicable to your project.

1. Conservation of water

a. Are you now employing water conservation efforts? YES ___ NO X

Describe any water conservation efforts you have initiated: _____

b. If credit toward beneficial use of water under claimed pre 1914 appropriative water right for water not used due to a conservation effort is claimed under section 1011 of the Water Code, please show the amounts of water conserved:

Reductions in Diversions:

yr _____ (af/mg) yr _____ (af/mg) yr _____ (af/mg)

Reductions in consumptive use:

yr _____ (af/mg) yr _____ (af/mg) yr _____ (af/mg)

I have data to support the above surface water use reductions due to conservation efforts. YES ___ NO ___

Siw
5/11/05

2. Water quality and wastewater reclamation
- a. Are you now or have you been using reclaimed water from a wastewater treatment facility, desalination facility or water polluted by waste to a degree which unreasonably affects such water for other beneficial uses? YES ☐ NO ☒
- b. If credit toward use under a claimed pre 1914 appropriative water right through substitution of reclaimed water, desalinated water or polluted water in lieu of appropriated water is claimed under section 1010 of the Water Code, please show amounts of reduced diversions and amounts of reclaimed water used:
- yr _____ (af/mg) yr _____ (af/mg) yr _____ (af/mg) yr _____ (af/mg)
- I have data to support the above surface water use reductions due to wastewater reclamation. YES ☐ NO ☐

3. Conjunctive use of surface water and groundwater

- a. Are you now using groundwater in lieu of surface water? YES ☐ NO ☒
- b. If credit toward use under a claimed pre 1914 appropriative right through substitution of groundwater in lieu of appropriated water is claimed under section 1011.5 of the Water Code, please show the amounts of groundwater used:
- yr _____ (af/mg) yr _____ (af/mg) yr _____ (af/mg) yr _____ (af/mg)
- I have data to support the above surface water use reductions due to conjunctive use efforts. YES ☐ NO ☐

I understand that it may be necessary to document the water savings claimed in "F." above if credit under Water Code sections 1010 and 1011 is sought in the future.

I declare that the information in this report is true to the best of my knowledge and belief.

ITEM CONTINUATION

GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California. They are riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the sources of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to store water for later use or divert water which originates in a different watershed, water previously stored by others, return flows from use of groundwater, or other "foreign" water to the natural stream system.

An appropriative right is required for use of water on nonriparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. Since 1914, new appropriators have been required to obtain a permit and license from the State. Appropriate rights can be granted to waters "foreign" to the natural stream system.

Statements of Water Diversion and Use must be filed by riparian and pre 1914 appropriative water users as set forth in Water Code section 5100 with specific exceptions. The filing of a statement. (1) provides a record of water use, (2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversions, and (3) assists the State to determine if additional water is available for future appropriators.

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available. They include: (1) Statements of Water Diversion and Use, (2) Information Pertaining to Water Rights in California, and (3) Appropriation of Water in California.

"The energy challenge facing California is real. Every California needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our Web-site at <http://www.swrcb.ca.gov>"
